

Project Reference List

Revision: 19

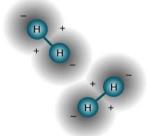

Date: November 2018

Activities

RAP Clean Vehicle Technology is active in the following fields

- Training
- Consultancy
- Supply of Infrastructure
- Supply of test equipment

All however specifically related to the gaseous fuels LPG, CNG, LNG, Biogas and Hydrogen.

Training Reference Projects

RAP Clean Vehicle Technology can organise the following training:

• Technical training / Safety training / Drivers training

- Mercedes-Benz Global Training (train-the trainer CNG & LNG)
- MAN / Neoplan Traininginstitute, Germany (train-the-trainer CNG, LNG & H₂ for buses)
- Iveco BeNeLux / Iveco Schouten (technical dealer staff CNG & LNG for truck & bus)
- Malte Manson, Sweden (technical staff CNG, LNG & H₂)
- AFV (Volvo), Sweden (train-the-trainer CNG & Bio-Methane)
- Renault & Dacia, Germany (technical dealer staff LPG)
- AGCO Sisu Diesel / AGCO Valtra, Finland (technical CNG, Biogas, H₂)
- RDW-Dutch Road Authorities (technical / legislation CNG, LNG, H₂)
- Fire departments / Rescue Services (safety & calamity handling CNG, LNG, H₂)
- Innovam / HTM (technical, safety and drivers training CNG buses Public Transport Code95)
- Installer training, Iceland (CNG, Bio-Methane)
- Almaty Electro Trans, Kazakhstan (technical training CNG buses Public Transport)
- College of New Technology Almaty (via UNDP) (train-the-trainer CNG technology)
- Tata Engineering UK (technical & safety training CNG technology)
- Scania Dealer & Scania Production (technical training CNG, LNG truck & bus)
- KIWA Training (CNG cylinder inspection)
- Achterkamp Bedrijfsopleidingen (drivers training CNG & LNG truck- & busdrivers Code 95)
- Iveco Germany (CNG & LNG technical / commercial training)
- Connexxion (H₂ for public transport, component and system technology, safety, maintenance workshop)

Consultancy Reference Projects

RAP Clean Vehicle Technology can consult for following:

- Engine & Vehicle development
- Vehicle homologation
- Production and Service workshop

- RAVO (development mono-fuel CNG street swiper)
- TÜV / MAN Neoplan (homologation Hydrogen city bus)
- AGCO Valtra Finland (development Dual-Fuel CNG agricultural tractor)
- AGCO Sisu GenPowex Finland (development Dual-Fuel Biogas generator set)
- Lantmännen / Transport Styrelsen (Swedish national approval Valtra CNG tractor)
- AFV (Volvo) Sweden (Component selection V70 Bi-fuel)
- IVECO Schouten (national approval LNG truck)
- Gasföreningen Sweden (set up certification system CNG)
- Vehicle Repair Workshop CNG, LNG & H₂ (audit and advice)
- ROM advice on CNG systems for Public Buses Almaty Kazakhstan
- KIWA automotive / EBRD Pre-Delivery-Inspection 200 CNG buses for Almaty-Kazakhstan
- KIWA autom./ EBRD Pre-Delivery-Inspection 92 CNG buses for Kyzylorda -Kazakhstan
- Gemeente Groningen Handling Hydrogen vehicles in repair workshop
- OEM vehicle manufacturer Approval of 250 bar CNG system for the UK
- LNG tank manufacturer Market study & Training
- Zero-e Support Hydrogen service workshops (bus for public transport)

Infrastructure Reference Projects

RAP Clean Vehicle Technology can supply or advise on infrastructure :

- Refuelling CNG, LNG, Biomethane and Hydrogen
- Transport CNG, LNG, Biomethane and Hydrogen
- Customized test equipment

- Consultancy concerning virtual pipeline CNG, LNG, hydrogen
- Consultancy concerning MRU (Mobile Refuelling Unit) CNG, hydrogen
- Building demonstration CNG vehicle for training Fire Departments
- Test equipment for engines on oil platforms
- ROM Israel advice on CNG refuelling station & bus service workshop Almaty-Kazakhstan

Other Projects

RAP Clean Vehicle Technology can support in any other program related to gaseous vehicle fuels

- Feasibility Study Sweden (Dual-Fuel CNG & Biogas for Off-Road equipment) in cooperation with Biogas Syd, E.ON gas Sverige, Lantmännen, SGC a.o.
- Market study CNG in Latin America
- Set up state accepted training / diploma "CNG-Technicus" in cooperation with innovam, IBKI, RAI, Bovag a.o.
- Safety on vehicle workshops for Hydrogen vehicles, Norway
- CNG workshop, Turkey (in cooperation with ENGVA)
- Participation Borgeby Fältdagar, Sweden (Biogas tractor)
- Support RDW (Dutch Road Authorities) to set up certification system for CNG conversion workshops.
- Clean City program Almaty-Kazakhstan, 200 CNG buses for public transport
- Feasibility Study biogas agricultural tractor production in Achterhoek NL in cooperation with Pasman, WUR and ACT
- Accident investigation on LPG, CNG and LNG vehicles (several)
- Investigate regulatory work for use of LPG on weed-killer machines (NL)
- Investigate regulatory work for use of CNG on high-pressure cleaning equipment (B)
